

## Digital Cage Assistant App Beta-Testing Evaluation Form

The DCA app was developed to digitize the collection of patient data during their stay at WVC. To prevent loss of this information and to quickly search for patient information in one location.

Beta-Tester Name: Hailey C

Date & time of Beta-Testing: 11.16.17 1pm

Please answer the following questions. Answers should give the developers constructive criticism and advice to improve future app releases.

1. How would you rate your experience using the mobile app?

	1	2	3	4	5	
not user friendly	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	exceeded expectations

2. What problems did you encounter with the mobile app?

☐ The app was visually unappealing

☐ The app was missing features I needed

☐ The app crashed

☐ The app was confusing to use

☒ Other: Adding Appetite custom notification

3. Were you confused about any aspect of the program? If so, please explain.

Ability to change shelter in 'Demographics' section

4. Would you like to see any improvements to the program? If so, describe them.

Am/PM status - each clickable? - between feces/urine etc.  
BCS halves (eg 3.5)

5. Make any other comments here:

**Digital Cage Assistant App  
Beta-Testing Evaluation Form**

The DCA app was developed to digitize the collection of patient data during their stay at WVC. To prevent loss of this information and to quickly search for patient information in one location.

Beta-Tester Name: Morgan Frazee

Date & time of Beta-Testing: 11.18.17

Please answer the following questions. Answers should give the developers constructive criticism and advice to improve future app releases.

1. How would you rate your experience using the mobile app?

	1	2	3	4	5	
not user friendly	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	exceeded expectations

2. What problems did you encounter with the mobile app? n/a

- ☐ The app was visually unappealing
- ☐ The app was missing features I needed
- ☐ The app crashed
- ☐ The app was confusing to use
- ☐ Other:

3. Were you confused about any aspect of the program? If so, please explain.

n/a

4. Would you like to see any improvements to the program? If so, describe them.

n/a

5. Make any other comments here:

Alerts for if you skipped a dog  
Alerts to medicate  
Able to make adjustments on  
phone.

## Digital Cage Assistant App Beta-Testing Evaluation Form

The DCA app was developed to digitize the collection of patient data during their stay at WVC. To prevent loss of this information and to quickly search for patient information in one location.

Beta-Tester Name: Hector

Date & time of Beta-Testing: 12:50 pm

Please answer the following questions. Answers should give the developers constructive criticism and advice to improve future app releases.

1. How would you rate your experience using the mobile app?

	1	2	3	4	5	
not user friendly	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	exceeded expectations

2. What problems did you encounter with the mobile app?

☐ The app was visually unappealing

☐ The app was missing features I needed

☐ The app crashed

☐ The app was confusing to use

☐ Other: EX treatment shortcut/Bottom doesn't work

3. Were you confused about any aspect of the program? If so, please explain.

N/A

4. Would you like to see any improvements to the program? If so, describe them.

N/A

5. Make any other comments here:

Bloodwork says true instead of being checked off in email  
or says false if blood collection sample wasn't taken

yes/NO
